Risk Assessment-Property & Business Interruption Workshop held in Lahore September 16, 2013

A workshop on Risk Assessment-Property & Business Interruption was held in Lahore on September 16, 2013 from 2:00 pm to 5:00 pm at the premises of the Lahore Insurance Institute.

The workshop was conducted by Mr. M. Vaqaruddin, faculty member, Pakistan Insurance Institute. The workshop got a very positive response and 47 participants from various insurance companies working in the risk management, underwriting and claims departments attended the workshop.

The workshop started by defining the risk and how important it is for an insurance company to understand the risk. Mr. Vaqaruddin emphasized that the best way to have an idea of the risk is to see it. The objectives of conducting a risk survey were discussed in detail. By using this tool the material facts of the risk are known and therefore assist the underwriter in assessment and rating of the risk.

Following a risk survey / pre risk inspection, the surveyors and underwriters sit together to develop a loss prevention programme for the proposer. Requirements and recommendations are made available to the proposer in order for the proposer to make the risk acceptable to the insurance company and then to continue to improve upon the risk for most competitive rates. The insurance company in turn has adequately assessed and rated the risk.

Thus, it is a win-win situation for both insurer and the insured.

The importance of the use of survey reports and their interpretation was highlighted. Citing examples, the concept and the importance of a standard risk were explained and how any deviation affects the rates and terms of the insurance contract.

Post loss surveys are equally important as these explain the cause of loss and what remedial measures and actions have been taken to prevent it from happening again. Whether corrective actions were taken? At this point insurer decides whether to continue acceptance of the risk and if yes than on what terms.

A comprehensive check list was provided to the participants that may be used at the time of survey so that they may not miss anything while on the premises for survey. Sample survey report was also shared with the participants that comprised of all that was presented in the workshop.

The workshop was very interactive and well received by the participants and the feedback was very positive 'a difficult concept presented in a very simple manner'.

Property Treaty Reinsurance Workshop August 27 – 28, 2013

Aon Pakistan organized a Property Treaty Workshop on 27-28 August 2013 at the Avari Towers, Karachi. The training was conducted by a seasoned professional trainer Mr. Charles Robertson. This was the third such workshop in two years.

Mr. Charles Robertson, Senior Director of Training at Aon, has 50 years of experience in the Insurance and Reinsurance Industry. The workshop, which presented a great opportunity to learn from Mr. Robertson's professional training experience was thought provoking and interactive. He expanded on the knowledge he imparted last year and provided training in advanced Reinsurance concepts and practical skills which will help the participants in their careers.

The workshop was well attended and had 40 participants from key Insurance companies of Pakistan.

Mr. Mohammed Asif Arif, Commissioner (Insurance) Securities & Exchange Commission of Pakistan graced the occasion on the last day of the Workshop and distributed Certificates of participation.

Pakistan Insurance & Takaful Conference 2013-Managing Risks August 20, 2013

Pakistan Insurance and Takaful Conference 2013 organized by the Pakistan Society of Actuaries (PSOA) on Tuesday August 20, 2013 at the Karachi Sheraton Hotel and Towers attracted participants belonging to the insurance, banking and other related sectors. The conference provided a forum for generating ideas so as to stimulate growth in the sector.

The conference held in 2 parts i.e. the first half of the day consisted of presentations / talk by eminent speakers from the insurance sector. The afternoon was dedicated to the technical sessions, featuring presentations from distinguished speakers and industry experts, there being some parallel sessions relating to life insurance and non-life insurance business.

Speakers and panelists included senior executives of the life and non life Insurance and Takaful companies of Pakistan. Two learned speakers from Munich Re also participated in the conference.

<u></u>

Seminar on Role of Trustees in Provident, Pension and Gratuity Funds

For 47 years, Akhtar & Hasan (Pvt.) Limited is providing actuarial advice, and provident fund, pension fund and gratuity fund administration services to its corporate clients. Since commencement for our services in 1965, our practice has steadily grown and today we are well established in Pakistan with clients also based in neighbouring countries.

From time to time, we hold Early Bird Seminars on topics of current interest. An Early Bird Seminar was held on June 20, 2013 on the "Role of Trustees in Provident, Pension and Gratuity Funds". The main speaker of the seminar was Mr. Samee-ul-Hasan Chief Executive and Senior Actuary Akhtar & Hasan (Pvt.) Ltd. He became a Fellow of the UK Institute of Actuaries in 1963, and was awarded the Sir Joseph Burn Prize. He is also a Fellow of the UK Chartered Insurance Institute, and a Fellow 'with distinction' of the US Life Offices Management Association Institute. He joined this firm in 1975. He was Board Member and in-charge of State Life's investment portfolio for several years, and served as Chairman for three years from May 2000 to May 2003.

Recognised Provident Funds, Approved Superannuation (i.e. pension) Funds and Approved Gratuity Funds have delivered benefits to a large number of Pakistani employees over decades. Trustees have worked without charging any fees, and the expenses debited to the Funds have been either zero or negligible. Thus, the investment returns have been fully passed through to the beneficiaries. No serious problems have come to the public notice; however, some trustees have on occasion asked us to conduct a seminar to list their various duties.

The seminar was very well attended and imparted very useful knowledge about responsibilities, laws and regulations relating to

the Trustees of the Provident, Pension and Gratuity Funds. Trustees of these funds administer the funds under the terms of the Trust Deeds. These Funds are affected by:

- The Trusts Act, 1882
- · The Trust Deed and Rules of their own Fund
- S.227 (2) and (3) of the Companies Ordinance, 1984, in the case of an entity governed by that Ordinance
- The Employees' Provident Fund (Investment in Listed Securities) Rules, 1996, framed under the Companies Ordinance, 1984
- The Income Tax Ordinance, 2001 and The Income Tax Rules, 2002
- The laws on "insider trading", if applicable

This compliance relates not only to investments, but also to other aspects. Each of the above regulations and laws were discussed in great detail during the seminar.

Typically, the trustees also have a role in the Company. Either they are key management personnel, or represent employees. It was examined in the seminar how these roles relate to their duties as Trustees. This inevitably means additional duties and additional risks. Often, the implications are not fully appreciated when the appointment is offered and accepted. The risks can be extreme. Although no serious problems have come to public notice in Pakistan but trusteeship is not a role to take lightly, and one should think carefully before accepting the appointment.

Contributed by Mr Muhammad Hussain Boricha, FSA, FPSA Senior Manager and Actuary Akhtar & Hasan (Pvt.) Limited

Securities & Exchange Commission of Pakistan

Training of Insurance Agents

To facilitate the insurers in encountering the practical difficulties in compliance of the Circular 2 of 2013, the Securities and Exchange Commission of Pakistan (SECP) vide its Circular 2/2 of 2013 extended the deadline for the compliance of Rule 26 of the SEC (Insurance) Rules of 2002 latest by March 31, 2014, after which any insurance business or transaction carried out by an agent, lacking the requisite qualification, shall therefore be construed as null and void and no commission shall be payable by the insurers to such non-compliant agents.

Revised Legal Framework for the Insurance Brokers

The SECP proposed draft amendments in the Insurance Rules, 2002 affecting the licensing of direct insurance brokers which were published in the Official Gazette of Pakistan on September 19, 2013 for seeking public comments. The amendments touch upon the areas of exclusivity of insurance broking license, paid-up capital requirements, requirement to maintain net asset value, registration and renewal fees, statutory deposit requirements, professional indemnity insurance requirements and fit and proper criteria for the directors and chief executive of the insurance brokers. After due consultation, the amendments are expected to be finalized in the first quarter of 2014.

Bancassurance Regulations

To align the long-term interests of the policyholders, insurers and agents (banks in this case), the SECP published the draft Bancassurance Regulations, 2013 in September 2013, thus replacing the earlier Bancassurance Guidelines of 2010. The draft Regulations are aimed at introducing the regulatory measures such as rationalization of bank's remuneration structure, , introduction of commission claw-back provision, minimum surrender values, minimum financial underwriting parameters and a restriction on recycling of life insurance policies. The draft Regulations also address the improvement in the overall sales process for Bancassurance by introduction of insurance need analysis document, requirement of Urdu version of illustrations and provision of these illustrations at point of sale as a stand-alone document to the prospective policyholders and mandatory after sale call-back requirements. A minimum financial protection element has also been introduced to stress on the insurance element of the products sold through this channel.

Importance of Health Insurance

Dr. Mazhar HasanDeputy General Manager
Head of Medical Services & Claims Management
Allianz EFU Health Insurance Ltd

Health is undoubtedly the real wealth. In fact, good health is a treasure that every individual cherishes the most. But unfortunately illness and diseases are part and parcel of life and always exist. With the rising healthcare cost, sickness may not only lead to mental distress for the whole family, but could also adversely affect the finances for a long time to come. The implications become even more severe if the illness results in prolonged hospitalization.

Realizing the Risk involved

Who saves for any such sickness? We might save for a vacation, LCD, Fridge or furniture, but rarely do we set aside a chunk of our salaries for any unforeseen accidental injury, sickness, gallbladder removal or a knee replacement. Most of us try to protect ourselves from financial losses when a home, car or even motorcycle is purchased. So if you suddenly find yourself saying, 'why does this happen to me', in the middle of a medical emergency, you'll probably have to sacrifice a dream or compromise a fund you saved for something else. Same should be followed for health but what we don't realize is the cost we may have to pay in case of an emergency visit to a hospital due to an accident or injury can be much more costly than you might expect. Here are some facts of the average cost of treatment of:

- Enteric fever / Typhoid fever Rs. 25,000 Rs. 35,000
- A broken leg can cost up to Rs. 60,000 to Rs. 80,000
- Appendectomy Rs. 55,000
- · Dengue fever Rs. 25,000 (This definitely increases in case of Platelet transfusions)
- Angioplasty Rs. 300,000
- Heart Bypass Rs. 450,000

These examples sound scary, but the good news is that, with a health Insurance policy, we can protect ourselves from most of these and other types of medical bills.

Similarly the globalization of economy, employee mobility, high cost of employee replacement, and the need to retain valuable employees, have posed new challenges for companies. While healthcare costs are escalating at an alarming rate, employees today demand and choose to work for companies that offer medical benefits. Some companies have offered medical benefits to their employees by maintaining an accounts ledger of medical expenses and reimbursing claims. They have not only experienced steadily rising costs but also sudden peaks in expenses caused by major medical events. Managing health care requires a combination of clinical knowledge, contractual administration, tracking systems and healthcare management expertise. As their primary focus is to make a profit in their core business they neither have the time nor the resources to undertake healthcare management on their own and then there is also the risk associated with major medical events.

Solution to the problem

That's where Health Insurance steps in, so that one can have access to the best healthcare without fearing the financial strain. Health insurance provides you with an affordable way for you and the ones you love to stay healthy and get medical care when ill. It also protects you and your family from the high cost of health care. In some cases, medical bills can be financially devastating.

Many people don't even think about health insurance until they need it. That's because they may be worried about the cost. It may also be because they don't have access to the best resources. By doing some research and making good choices ahead of time, you can save time and money down the road.

One of the key benefits of health insurance is access to a large network of doctors and hospitals, as well as other handy resources to help you stay healthy. Some of the benefits of health insurance include:

- Being able to quickly and easily find the help you need close to home
- Peace of mind and less stress during a tough time because you know you're covered
- · Access to affordable care and health information to keep you happy and healthy

Types of Health Insurance Coverage

There are two types of Health Insurance Coverage

Individual health Insurance

Individual Health Insurance is purchased by a single person for themselves or their families. This coverage can cover more than one person (i.e. the entire immediate family) and is not "just for one person"

· Group Health Insurance

GHI provides benefits to a defined group of individual who are eligible because of relation to a particular organization. This type of insurance is designed for the purpose of a company purchasing insurance for its employees.

Choosing a Health Plan

The following are the factors which should be reviewed before buying Health Insurance Plans:

- It is very important to choose a reputable and experienced health insurance company as far as you have to be sure by 100% that you'll be provided will all necessary health care services when you need them
- Wide Range of Hospitals on Panel
- Different types of Benefits plans / Annual Limits enabling to choose according to one's need
- Maximum Life Time Cover
- What is not Covered under the Policy (exclusions)
- Any waiting Period in the policy
- Is there any Deductible / Co-Insurance in the policy
- Reimbursement Procedure in case of Non-Panel Hospitals
- Facility Of Help Lines

Agent Foundation Course Examination held in Islamabad September 14, 2013

To accommodate agents desirous of appearing in examination on self study basis in Rawalpindi and Islamabad, Pakistan Insurance Institute arranged the Agent Foundation Course Examination at the Islamabad Model College for Girls (Post Graduate) on September 14, 2013 from 11:00 am to 12:00 noon. This well known college is centrally located and is easily accessible, thus candidates around Islamabad and Rawalpindi found it very convenient to commute to the examination centre. The room could easily accommodate 40-45 candidates at a time. The agents started arriving at the centre 15 minutes before time and the exam started exactly at 11:00 am.

Out of the 43 registered candidates, 32 appeared for the exam and the 30 successful candidates have been awarded the certificates.

Following candidates declared successful:
